3B/BMC PRESS RELEASE

3B Medical and CMB Solutions Announce Data Integration and Strategic Partnership

INDIANAPOLIS and LAKE WALES, Oct. 31 - 3B Medical, Inc. and CMB Solutions, Inc. announced the formation of a strategic alliance today. 3B Medical is an innovative manufacturer and distributor of PAP devices, masks and accessories whose focus is on improving patient compliance and comfort. CMB Solutions provides patient contact and compliance management software through many outcome-based product packages strictly for the HME/DME industry. Both companies have proven exponential growth this year with concentrations on being both cost effective and patient-centric.

3B Medical's iCodeConnect cloud based patient management system renders modems obsolete with a totally free and fully automated IVR compliance capture which allows sleep data to be transferred easily by patient or provider engagement. The integration of 3B's iCode with CMB Solutions' cloud-based system allows mutual clients an automated and efficient platform with real-time proven compliance even for same-day order processing due to their seamless integration with multiple billing software and fulfillment services. This means a huge savings for the HME/DME who will no longer have to look between billing system, compliance system, patient contact system and fulfillment system to process orders. CMB Solutions will continue to offer client-branded compliance and quality assurance surveys for all product lines, but will include iCode entry into their live call, email, text and IVR scripts. This will populate back into iCodeConnect for detailed compliance reporting for its users.

CMB Solutions' CEO, Asif Kidwai, PhD, states, "These expanded capabilities allow the HME/DME to access CMS-compliant data from a single source with ours being the most comprehensive within the industry. We are excited to partner with 3B Medical to continue to bring added value and new efficiencies to this market". Reporting data will easily migrate between the two systems for optimized patient management AND care on or before December 2014.

About 3B/BMC:

3B/BMC is a global leader in the development, manufacturing and marketing of medical products for the treatment and management of sleep disordered breathing.

About CMB Solutions:

CMB Solutions is the homecare industry-leading, client-customized, hybrid patient management system for patient education, compliance and replenishment of all HME product lines.
